Internship

Full Stack Developer Virtual Intern (AICTE)

Jan 2026- Feb 2026

- Developed full-stack web applications during AICTE Full Stack internship, improving application functionality by building responsive frontends and integrating backend APIs.
- Strengthened end-to-end development skills by implementing Restful APIs, database integration, and frontend-backend connectivity.

Projects

AI Assistant Platform

Tech Stack: React.js, Node.js, Express, MongoDB, Socket.IO, JWT, Redis, LangChain

- Developed a full-stack AI assistant platform using **React.js, Node.js, Express.js, and MongoDB**, enabling real-time AI-powered conversations.
- Implemented **Socket.IO** for real-time messaging and multiplayer gameplay interactions.
- Built an AI agent system using **LangChain** with **Gemini** and **Mistral** models, supporting tool-calling capabilities.
- Integrated backend tools for web search, code execution, file management, and **email automation**.
- Implemented **JWT authentication**, and Redis-based token blacklisting for secure authentication and session management.
- Deployed the application on **Render** as a production-ready full-stack application.

Aavran – Full-Stack E-Commerce Platform

Tech Stack: React.js, Redux Toolkit, Tailwind CSS, Node.js, Express.js, MongoDB, Mongoose, JWT, Razorpay, ImageKit, Multer, RESTful APIs.

- Developed a full-stack e-commerce platform using the MERN stack with secure **JWT-based authentication**, role-based **authorization**, and protected RESTful APIs.
- Designed and implemented product, cart, order, and seller management modules with support for optional product variants, inventory management, and **dynamic pricing**.
- Built optimized MongoDB **aggregation pipelines** to calculate cart totals, variant-based pricing, GST, shipping charges, and checkout summaries using current product prices.
- Integrated **Razorpay** Payment Gateway for secure online payments, including order creation, payment verification, and order status management.
- Implemented image upload and optimization using **ImageKit** and **Multer**, enabling sellers to efficiently manage product and variant images.
- Developed responsive user interfaces with React.js, Redux Toolkit, and **Tailwind CSS**, featuring product search, **filtering**, shopping cart and checkout functionality.

Certifications

- RCPL | Data Structure & Algorithms
- Full Stack Developer Virtual Intern
- Hackathon Participation Certificates

Technical Skills

- Languages:** JavaScript (ES6+), C++, Python TypeScript (Basic)
- Frontend:** React.js, HTML5, CSS3, Tailwind CSS, Context API, Redux Toolkit
- Backend:** Node.js, Express.js, REST APIs, JWT, OAuth, Socket.IO
- AI & LLM:** LangChain, RAG(Basic)
- Database:** MongoDB, Mongoose, Redis
- Tools & Services:** Git, GitHub, Postman, Render, Vercel, ImageKit, Nodemailer

Education

Gulzar Group of Institution

Computer Science and Engineering—CGPA:7.3

2023– 2027

Khanna, Punjab

Government Senior Secondary School (Multipurpose)

12th with Science—Percentage:77.8 %

2021 – 2022
